

NorthBay Healthcare Specialty Ambulatory Directory

Our Vision

Compassionate care drives us

People feel our warmth and caring from the minute they hear our voice or enter the door. Our devotion to patients and families continues throughout their journey to health. They say that what makes NorthBay different is that every employee, regardless of role or job title, goes above and beyond.

Advanced medicine differentiates us

We are the Mayo Clinic of the region, providing sophisticated health services rarely seen in counties of this size. We will be the first to bring innovative health care to those we serve and be the recognized leader in health care locally.

Close to home defines us

Because we were born here, we promise to bring cutting-edge medicine to Solano County's communities. Our competence and capability earn the trust of those we treat. Collaboration with the nation's most advanced clinical institutions enables us to manage extremely complex cases here, close to home.

Mayo Clinic Care Network Collaboration

The Mayo Clinic Care Network extends Mayo Clinic's knowledge and expertise to physicians and providers who are interested in working together in the best interest of their patients. Through this collaboration, our providers have access to additional clinical resources to help care for patients and improve the health of the community.

Ambulatory Referrals and Authorizations

NorthBay Healthcare provides sophisticated healthcare services rarely seen in counties of this size, not only in our two hospitals — NorthBay Medical Center in Fairfield and NorthBay VacaValley Hospital in Vacaville — but in our primary care and specialty care practices. From oncology to robotic assisted surgery, and from birth through the end of life, NorthBay Healthcare has teams of medical experts ready to assist in the care of your patients.

As the process varies based on the specialty, please contact the associated referral specialist who will assist in scheduling and preparing your patient for the visit.

When referring patients with HMO coverage, please follow the referral/ authorization procedure outlined by the plan.

We look forward to partnering with you and your patients.
